## IMPROVEMENTS.

Would it not be well if the Town Council would take into consideration the importance of further improvements to the town by putting down more sidewalks and grading some of the streets. The situation of the town is such that any citizen could desire, but in order that it may better assume the appearance of a town, and for the convenience and benefit of the citizens a number of our streets should be graded and more sidewalks should be put down. Some two years ago, \$7,000 was spent in draining, grading and building sidewalks, but as the greater part of that amount was expended for drainage, so that the amount left for grading and building sidewalks was much less than it should have been.

In order to keep pace with the times, and the material progress of the town something should be done in the way of street improvements. The grading of a number of the principal streets is not only very desirable, but will also very much enhance the appearance of this beautiful town. Some more sidewalks are necessary and in justice to some parts of the town, the present sidewalks should be extended.

The sidewalk on Church Street should be extended to the Court House the one on River Street should be extended farther west in justice to the large ratepayers in the western part of the town; the sidewalk on McKay Street, should be extended from First Street to Third Street; and the one on Third Street extended from Church Street to McKay Street. Sidewalks should be laid on Nisbet, McLaren and Selkirk Streets from Church Street to McKay Street, and on Second Street from McKay Street to King Street.

Several of the streets running North and South should be graded, and also all the streets running east and west as far south as Fourth Street. In order to make these permanent and necessary improvements a considerable expenditure would be required, and therefore to meet such an expenditure it would be necessary for the town to issue debentures. Let the Town Council make an estimate for the amount necessary for street grading and the building of more sidewalks and submit a bill to the ratepayers. \$5,000 or \$6,000 would not be too much to expend in permanent improvements and the sooner such improvements are proceeded with, the better. The issuing of debentures for such improvements as the town needs, now, will necessarily require only a small rate on the dollar every year when extended over a number of years.

The present indebtedness of the town is only \$20,200. Allowing \$3,500 for the mill house, \$6,000 for fire apparatus and fire hall and say \$6,000 for street grading and sidewalks, the indebtedness of the town will then only be \$38,200.

The improvements will very much increase the value of the property, so that with the increased indebtedness of \$15,000 the rate on the dollar will even be less than it is now. We have now placed the matter fairly before the town fathers and hope they will give it their early consideration. If improvements are to be made let them be done early. We are fully convinced that the improvements cited are necessary and in the best interests of the town.

The Legislative Council of New South Wales, which answers to our Senate in the constitution of our colony is evidently a very independent body. It has just rejected a Ministerial measure imposing a tax on income, in order to tide over the financial crisis by a vote of 31 to 7. This will be rather unpleasant for Sir Dibbs, the Premier.

## PUBLIC CEMETERY.

In compliance with a petition in 1887 or '88, the Town Council decided to take over and enlarge the existing cemetery, and take control of the same, but as yet, nothing has been done. There is no reason that such an important matter as a public cemetery should be so long neglected and held in abeyance. If the town does not intend to take hold of the matter it would be well if a joint stock company was formed for the purpose. Those who visit the cemetery must be fully convinced of the very great necessity that something must be done. Let some steps be taken immediately for the enlarging, beautifying and properly caring for the cemetery.

The drain of gold from the United States to England is being duplicated by a smaller, but none the less steady, drain from Britain to Australia.

A unique compromise of the waiters' strike in Chicago is reported. The proprietors of restaurants sell the food to the waiters, who in turn make the most they can out of the customers. Rampant extortion is, of course, practiced, and disorderly scenes are common when bills are being settled.

A year ago Congress passed, and President Harrison approved, the Geary Exclusion Law. By its terms, every Chinaman resident in the United States upon the fifth of May, 1893, who had not registered his name, place of abode, and paid a tax at official quarters, was liable to arrest and imprisonment. No further immigration was to be permitted. But as the Chinese unanimously refused from obeying the law, President Cleveland found himself face to face with the necessity of arresting 100,000 men at that date, or else of allowing the law to fall into general contempt. The Administration compromised by arranging an appeal against the constitutionality of the measure, and Secretary Canby issued an order suspending its operation until the Supreme Court had passed upon the point.

The truth of the well known financial proverb, "The higher the interest the poorer the security," is again being forced upon the investing public by the recent bank failures in Australia. For some years the island continent has been filled with an overtrading and speculative excitement, arising from railroads and other developments. A land boom set in and has been running its course, but instead of allowing it to come to a natural end some of the banks which were drawn into it conceived the idea of prolonging the boom by the use of English money. This the banks readily got by the million of pounds simply by giving high rates of interest. British depositors were compelled to put in their money for definite terms, but as they could borrow on any time on their deposit receipts they found it quite a convenient method of investment. It was convenient, but in the end unprofitable. The slow-moving British is not devoid of the speculative spirit. History tells of many notable will-o'-the-wisp schemes he has run after in the belief that he would get enormous profits for his investments. Only recently Argentine was the popular field for investment, but the great enterprises floated there brought down the Barings and many others in their wake. Of late Australia has been promising vast returns, and the British investor has again been caught by the fatal sheen of Antipodean gold.

Wm. Bell of Red Deer, near Elmhurst, was tried on the 12th inst. for manslaughter. Last summer a man named Mackleson murdered his companion, near Elmhurst, and it was while he was endeavoring to escape that he was shot, or supposed to be shot by Bell. The charge of the judge to the jury was very strongly in favor of the prisoner. The jury after an absence of one minute announced a verdict of "not guilty."

## LORD KILCOURSE SPEAKS

We desire to call attention to the Great Winter Competition of 1891, which is now being conducted by the Canadian Agricultural and Home Journal, published at Peterborough, Canada. The Agriculturalist has gained a reputation in the past for dealing in connection with these competitions, and the future will be no exception of the rule. Those who care to compete can do so free of charge. All they have to do is to prepare a list of English words made from the letters in the two words, "Columbian Exposition." The rules are that no letter can be used other than it appears in the two words—slovenly named, or can the names of persons or places be used. Foreign words are also barred. The end prize is \$100,000; 2nd \$10,000; 3rd \$5,000; 4th \$2,500; 5th \$1,000 besides panes, organs, gold watches, 5,000 elegant silver tea services, etc., making a total of over 10,000 valuable prizes. All who send in correct word will receive a special prize. Take a few sheets of paper, prepare a list of words made up from the letters in the two words above quoted, and enclose \$1 for six months' subscription to meet the cost of the best publications in the country, and you will have a new and interesting magazine to read, and may secure \$25,000 in gold into the bargain. The Agriculturalist always carries out its promise to the very letter, as the following, from Lord Kilcourse, the Governor General's Secretary, will testify.

Government House, Ottawa, Ont., Jan. 16th, 1891.

Sir, I will give my great pleasure to recommend my friends to enter your competition. I am, Sir,

Your obedient servant, "KILCOURSE, A.D.C."

To the Editor of Canadian Agriculturalist, Peterborough, Canada.
